## **MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT (EBL)**

### **INDUSTRY STRUCTURE AND DEVELOPMENT**

After financial crisis in september 2008 which brought the world to a standstill and pushed most of the developed economies in to recession. Real estate investments gave poor returns as prices remain subdued in most markets, especially in the residential space. The table, Counting Gains, shows 0-6% rise in prices in 10 markets (Ahmedabad, Bangaluru, Chennai, Hyderabad, Kolkata, Pune, Noida, Gurgaon, Bhiwadi and Mumbai) in the one year. The real returns were negative considering 6-9% consumer price inflation. For those who took loans, which cost 10-10.5% a year, to buy a house, the returns were worse. In the commercial segment, while the inventory has declined in the last couple of years due to low development activity, absorption has remained slow, since corporate has deferred their expansion plans. NCR, Mumbai and Bangaluru continue to be the leading cities accounting for more than 75% of the entire space getting absorbed in the country in the last two or three years time frame. Most leading office destination are expected to witness a strong supply pipeline, which might widens the demand -supply gap, thereby impacting rental growth negatively.

The overall mood in the leasing market is also expected to remain cautious. While few large scale transactions for consolidation and relocation of offices might be reported, majority of the demand is expected to be for small and medium size office space. Supply level will continue to exert pressure on rental movement and market recovery in most micro market. Introduction of REIT is likely to have a positive impact on the retail market segment.

### **OUTLOOK**

With the improvement in economic scenario, better liquidity environment, recent pickup in growth rate in Real Estate Sector, the business is expected to grow. With potential for growth, coupled with various management strategies, management is optimistic about the growth of the Company in the coming years.

### **RISKS AND CONCERNS**

The nature of Company's business is such that various risks have to be confronted which not only exist in the said business but even grow at a respectable pace. However, these risks are no different than the ones faced by the Real Estate Sector as a whole. A comprehensive and integrated risk management framework forms the basis of all the efforts of the Company. Formal reporting and control mechanisms ensure timely information availability and facilitate proactive risk management. These mechanisms are designed to cascade down to the level of the line managers so that risks at the transactional level are identified and steps are taken towards mitigation in a decentralized fashion.

### **INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY**

The company has an audit process comprising both internal and external audits to ensure adequacy and effectiveness of controls. The internal controls are formulated and implemented by the management with an objective to achieve efficiency in operations, optimum utilization of resources and effective monitoring and compliance with applicable laws. The experienced and independent Audit Committee of the Board of Directors regularly reviews plans, significant audit findings, compliance with accounting standards and other legal requirements relating to financial statements.

### **FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE**

The financial statements have been prepared in accordance with the requirements of the Companies Act, 2013 and the applicable accounting standards issued by the ICAI. The management of East Buildtech Limited accepts the integrity and objectivity of these financial statements as well as the various estimates and judgments used therein.

### **CAUTIONARY STATEMENT**

Certain Statements made in this report relating to Company's objectives, outlook, future plans etc. may constitute "forward looking statement" within the meaning of applicable laws and regulations.
